WARRANTIES ON BOSE PRODUCTS

This document provides you with information on the nature and contents of the warranties that apply to your Bose product purchased directly from Bose or from a Bose authorized reseller.

1. LEGAL WARRANTIES APPLYING TO YOUR BOSE PRODUCT

Bose pays special attention to ensuring compliance with the rights and legal warranties you are entitled to, as a consumer, and facilitating their implementation.

For any purchase of a Bose product made by a consumer in France, Bose is bound by the legal warranty of conformity of the products sold, as mentioned at articles L. 217-4 to L. 217-12 of the French Consumer Code and by the warranty against hidden defects in the good sold under the conditions set out in articles 1641 to 1648 and 2232 of the French Civil Code.

The aforesaid texts are reproduced at the end of this document.

When the customer acts under the legal warranty of conformity, customer benefits from a two (2) year lead-time as from the delivery of the product to bring its claim. The customer does not have to prove that the non-conformity of the product already existed at the time of delivery for any defect that would appear within twenty-four (24) months following delivery of the product to the customer, unless Bose proves the contrary.

The customer may choose between the repair of the product (Bose repairs the product by using new or reconditioned parts) or the replacement of the product (by an equivalent new or reconditioned product), except where one of these two options would imply clearly disproportionate costs for Bose having regard to the value of the product or the significance of the defect, Bose reserving the right, in such case, to opt for the second option not chosen by the customer, in accordance with article L. 217-9 of the French Consumer Code.

In any case, Bose warrants that the implementation of the warranty of conformity will not generate any costs for client.

The customer may implement the warranty against hidden defects set forth in article 1641 of the French Civil Code, within a lead-time of two (2) years as from the discovery of the defect. In such case, the customer may choose between returning the product to Bose and being reimbursed of the price paid or keep the product and obtain a reduction in the purchase price, in accordance with article 1644 of the French Civil Code.
