Please read and keep all safety, security, and use instructions.

Bose Corporation hereby declares that this product is in compliance with the essential requirements and other relevant provisions of Directive 2014/53/EU and all other applicable EU directive requirements. The complete declaration of conformity can be found at: www.Bose.com/compliance

This product conforms to all applicable Electromagnetic Compatibility Regulations 2016 and all other applicable UK regulations. The complete declaration of conformity can be found at: www.Bose.com/compliance

Bose Corporation hereby declares that this product is in compliance with the essential requirements per Radio Equipment Regulations 2017 and all other applicable UK regulations. The complete declaration of conformity can be found at: www.Bose.com/compliance

Important Safety Instructions

1. Read these instructions.
2. Keep these instructions.
3. Heed all warnings.
4. Follow all instructions.
5. Do not use this apparatus near water.
6. Clean only with a dry cloth.
7. Do not block any ventilation openings. Install in accordance with the manufacturer’s instructions.
8. Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
9. Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
10. Only use attachments/accessories specified by the manufacturer.
11. Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.
12. Unplug this apparatus during lightning storms or when unused for long periods of time.
13. Refer all servicing to qualified personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.
WARNINGS/CAUTIONS

This symbol on the product means there is uninsulated, dangerous voltage within the product enclosure that may present a risk of electrical shock.

This symbol on the product means there are important operating and maintenance instructions in this guide.

Contains small parts which may be a choking hazard. Not suitable for children under age 3.

This product contains magnetic material. Consult your physician on whether this might affect your implantable medical device.

This product contains a tempered glass surface. Use caution to avoid impact. In the event of breakage, use care in handling broken glass.

• To reduce the risk of fire or electrical shock, do NOT expose this product to rain, liquids or moisture.
• Do NOT expose this product to dripping or splashing, and do not place objects filled with liquids, such as vases, on or near the product.
• Keep the product away from fire and heat sources. Do NOT place naked flame sources, such as lighted candles, on or near the product.
• Do NOT make unauthorized alterations to this product.
• Do NOT use in vehicles or boats.
• Where the mains plug or an appliance coupler is used as the disconnect device, the disconnect device shall remain readily operable.

Use at altitude less than 2000 meters only.

• The battery provided with this product may present a risk of fire or chemical burn if mishandled.
• If the battery leaks, do not allow the liquid to come in contact with the skin or eyes. If contact is made, seek medical advice.
• Do not expose products containing batteries to excessive heat (e.g. from storage in direct sunlight, fire or the like).
• Only use the following hardware to mount this product: Bose Soundbar Wall Bracket.
NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by Bose Corporation could void the user’s authority to operate this equipment.

This device complies with part 15 of the FCC Rules and with ISED Canada license-exempt RSS standard(s). Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This device complies with FCC and ISED Canada radiation exposure limits set forth for general population. This equipment should be installed and operated with a minimum distance of 20 cm between radiator and your body. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

This device for operation in the band 5150 – 5250 MHz is only for indoor use to reduce the potential for harmful interference to other co-channel mobile satellite systems.

CAN ICES-3(B)/NMB-3(B)

The product, in accordance with the Ecodesign Requirements for Energy Related Products Directive 2009/125/EC, is in compliance with the following norm(s) or document(s): Regulation (EC) No. 1275/2008, as amended by Regulation (EU) No. 801/2013.

### Required Power State Information

<table>
<thead>
<tr>
<th>Power Mode Description</th>
<th>Standby*</th>
<th>Networked Standby</th>
</tr>
</thead>
<tbody>
<tr>
<td>Power consumption in specified power mode, at 230V/50Hz input</td>
<td>&lt; 0.5 W</td>
<td>all network types ≤ 2.0 W</td>
</tr>
<tr>
<td>Time after which equipment is automatically switched into mode</td>
<td>&lt; 2.5 hours</td>
<td>≤ 20 minutes</td>
</tr>
<tr>
<td>Power consumption in networked standby if all wired network ports are connected and all wireless network ports are activated, at 230V/50Hz input</td>
<td>N/A</td>
<td>≤ 2.0 W</td>
</tr>
</tbody>
</table>

Network port deactivation/activation procedures. Deactivating all networks will enable standby mode.*

* Prior to deactivating networks or entering standby mode, use the microphone on/off button to ensure the microphone is turned on (the red indicator light will be off).

Wi-Fi*: Deactivate by pressing and holding the Bose Music and Skip Forward buttons on the remote simultaneously. Repeat to activate.

Bluetooth*: Deactivate by clearing the pairing list by pressing and holding the Bluetooth® button on the remote for 10 seconds. Activate by pairing with a Bluetooth® source.

Ethernet: Deactivate by removing the Ethernet cable. Activate by inserting the Ethernet cable.
For Europe:
Frequency bands of operation 2400 to 2483.5 MHz, 5150 to 5350 MHz, and 5470 to 5725 MHz.
Maximum transmit power less than 20 dBm EIRP.
Frequency band of operation 5725 to 5850 MHz.
Maximum transmit power less than 14 dBm (25mW) EIRP.
Maximum transmit power is below regulatory limits such that SAR testing is not necessary and exempt per applicable regulations.
This device is restricted to indoor use when operating in the 5150 to 5350 MHz frequency range in all EU Member States listed in the table.

This symbol means the product must not be discarded as household waste, and should be delivered to an appropriate collection facility for recycling. Proper disposal and recycling helps protect natural resources, human health and the environment. For more information on disposal and recycling of this product, contact your local municipality, disposal service, or the shop where you bought this product.

**Management Regulation for Low-power Radio-frequency Devices**

**Article XII**
According to “Management Regulation for Low-power Radio-frequency Devices” without permission granted by the NCC, any company, enterprise, or user is not allowed to change frequency, enhance transmitting power or alter original characteristic as well as performance to an approved low power radio-frequency devices.

**Article XIV**
The low power radio-frequency devices shall not influence aircraft security and interfere legal communications; If found, the user shall cease operating immediately until no interference is achieved. The said legal communications means radio communications operated in compliance with the Telecommunications Act.

The low power radio-frequency devices must be susceptible with the interference from legal communications or ISM radio wave radiated devices.

Please dispose of used batteries properly, following local regulations. Do not incinerate.
### China Restriction of Hazardous Substances Table

<table>
<thead>
<tr>
<th>Part Name</th>
<th>Toxic or Hazardous Substances and Elements</th>

</tbody>
</table>

**Note 1:** "○" indicates that the percentage content of the restricted substance does not exceed the percentage of reference value of presence.

**Note 2:** The "-" indicates that the restricted substance corresponds to the exemption.
**Date of Manufacture:** The eighth digit in the serial number indicates the year of manufacture; “0” is 2010 or 2020.

**China Importer:** Bose Electronics (Shanghai) Company Limited, Part C, Plant 9, No. 353 North Riying Road, China (Shanghai) Pilot Free Trade Zone

**EU Importer:** Bose Products B.V., Gorslaan 60, 1441 RG Purmerend, The Netherlands

**Taiwan Importer:** Bose Taiwan Branch, 9F-A1, No. 10, Section 3, Minsheng East Road, Taipei City 104, Taiwan

**Phone Number:** +886-2-2514 7676

**Mexico Importer:** Bose de México, S. de R.L. de C.V., Paseo de las Palmas 405-204, Lomas de Chapultepec, 11000 México, D.F. Phone Number: +5255 (5202) 3545

**UK Importer:** Bose Limited, Bose House, Quayside Chatham Maritime, Chatham, Kent, ME4 4QZ, United Kingdom

**Input Rating:** 100 - 240V 〜 50/60Hz, 65W

The CMIIT ID is located on the product label on the back of the soundbar.

---

**Please complete and retain for your records**

The serial and model numbers are located on the back of the soundbar.

Serial number: ____________________________________________

Model number: ____________________________________________

Please keep your receipt with your owner’s guide. Now is a good time to register your Bose product.

You can easily do this by going to global.Bose.com/register
Security Information

This product is capable of receiving automatic security updates from Bose. To receive automatic security updates, you must complete the product setup process in the Bose Music app and connect the product to the Internet. If you do not complete the setup process, you will be responsible for installing security updates that Bose makes available.
To view the license disclosures that apply to the third-party software packages included as components of your Bose Smart Soundbar 700 product:

1. On the remote, press and hold the Bluetooth button $\$+$ and Skip backward button $\#$ for 5 seconds.
2. Connect a USB cable to the SERVICE connector on the back of the soundbar.
3. Connect the other end of the cable to a computer.
4. On the computer, enter http://203.0.113.1/opensource in a browser window to display the EULA and license disclosure.

CONTENTS
Confim that the following parts are included:

Bose Smart Soundbar 700

Bose Soundbar Universal Remote

AA Battery (4)

Power cord*

HDMI cable

Optical cable

Cleaning cloth

ADAPTiQ headset

*May ship with multiple power cords. Use the power cord for your region.

NOTE: If any part of the product is damaged or if the glass on the soundbar is broken, do NOT use it. Contact your authorized Bose dealer or Bose customer service.

Visit: worldwide.Bose.com/Support/SB700
RECOMMENDATIONS

For best performance, follow these recommendations when placing the soundbar:

• Do NOT place any objects on top of the soundbar.

• To avoid wireless interference, keep other wireless equipment 1 – 3 ft. (0.3 – 0.9 m) away from the soundbar. Place the soundbar outside and away from metal cabinets, other audio/video components and direct heat sources.

• Place the soundbar directly below (preferred) or above your TV with the grille facing into the room.

• Place the soundbar on its rubber feet on a stable and level surface. For proper support, both feet must be resting on the surface. Vibration can cause the soundbar to move, particularly on smooth surfaces like marble, glass or highly polished wood.

• Keep the back side of the soundbar at least 0.4 in. (1 cm) from any other surface. Blocking the ports on this side affects acoustic performance.

• Make sure there is an AC (mains) outlet nearby.

• For best sound quality, do NOT place the soundbar in an enclosed cabinet or diagonally in a corner.

• If placing the soundbar on a shelf or TV stand, position the front of the soundbar as close as possible to the front edge of the shelf or TV stand for optimal acoustic performance.

CAUTION: Do NOT place the soundbar on its front, back or top when in use.
WALL MOUNT THE SOUNDBAR

You can mount the soundbar on a wall. To purchase the Bose Soundbar Wall Bracket, contact your authorized Bose dealer.

Visit: worldwide.Bose.com/Support/SB700

CAUTION: Do NOT use any other hardware to mount the soundbar.
CONNECT THE SOUNDBAR TO POWER

1. Connect the power cord to the power connector on the back of the soundbar.
2. Plug the other end of the power cord into an AC (mains) power outlet.

The soundbar powers on and the light bar glows solid amber.

NETWORK STANDBY

The soundbar transitions to network standby when audio has stopped and you have not pressed any buttons for 20 minutes. To wake the soundbar from network standby:

• Play or resume audio using your mobile device or using the Bose Music app.
• Talk to Amazon Alexa or your Google Assistant.
• On the remote, press the Power button $\circ$, a source button (see page 24), or Bose Music button $\mathcal{M}$ then a preset button (see page 25).

NOTES:

• To access your voice assistant in network standby, make sure the soundbar is set up using the Bose Music app and the microphone is on (see page 28).
• You can disable the standby timer using the Bose Music app.
The Bose Music app lets you set up and control the soundbar from your mobile device, such as a smartphone or tablet.

Using the app, you can stream music, set and change presets, add music services, explore internet radio stations, configure Amazon Alexa or your Google Assistant, and manage soundbar settings.

**NOTE:** If you have already created a Bose account in the Bose Music app for another Bose product, see “Existing Bose Music App Users” on page 19.

**DOWNLOAD THE BOSE MUSIC APP**

1. On your mobile device, download the Bose Music app.

2. Follow the app instructions.
ADD THE SOUND BAR TO AN EXISTING ACCOUNT
In the Bose Music app, go to the My Products screen and add your Bose Smart Soundbar 700.

CONNECT TO A DIFFERENT WI-FI NETWORK
Connect to a different network if your network name or password has changed, or if you want to change or add another network.

1. On the remote, press and hold the TV button □ and Skip backward button ● until the light bar glows amber.

2. On your mobile device, open your Wi-Fi settings.

3. Select Bose Soundbar 700.

4. Open the Bose Music app, and follow the app instructions.

   NOTE: If the app doesn’t prompt you for setup, go to the My Products screen and add your soundbar.
After you set up the soundbar using the Bose Music app, the app prompts you to run ADAPTiQ audio calibration for best acoustic performance. ADAPTiQ audio calibration customizes the sound of the system to the acoustics of your listening area by taking five audio measurements. To run an audio calibration, you need 10 minutes when the room is quiet.

During ADAPTiQ audio calibration, a microphone on the top of the ADAPTiQ headset (provided with the soundbar) measures the sound characteristics of your room to determine optimal sound quality.

**RUN ADAPTIQ AUDIO CALIBRATION**

If you later connect an optional bass module or surround speakers, move the soundbar or move any furniture, run ADAPTiQ audio calibration again to ensure optimal sound quality.

To run ADAPTiQ audio calibration, use the Bose Music app. You can access this option from the Settings menu.
The soundbar controls are located on the top of the soundbar and on the remote.

**NOTE:** You can also control your soundbar using the Bose Music app.

Microphone off button (see page 29)  
Action button (see page 29)

Microphone off indicator (see page 44)  
Light bar (see page 43)

**VOICE ASSISTANT CONTROLS**
You can use the Action button ○ and Microphone off button ⌘ to control Amazon Alexa (see page 30) or your Google Assistant (see page 34).
REMOTE FUNCTIONS

Use the remote to control the soundbar, sources connected to the soundbar, Bluetooth connections, and presets.

**Powers on/off the soundbar** (see page 23)

**Powers on/off the selected source** (see page 24)

**Displays the Internet TV home page or the current source's home menu**

**Lists recorded DVR programs**

**Mute/Unmute** (see page 26)

**Selects a source connected to your TV**

**Source buttons** (see page 24)

**Cable/satellite function buttons** (see page 27)

**Navigation pad**

**Volume controls** (see page 26)

**Channel controls** (see page 26)

**Previous channel, chapter or track** (see page 26)

**Media playback** (see page 26)

**Numeric keypad. Numbers 1 – 6 play music from preset streaming music sources** (see page 38)

**NOTE:** You program your remote using the Bose Music app.
Power
To power the soundbar on/off, press the Power button on the remote.
When powered on, the remote buttons glow according to the last active source.

NOTES:
• When you plug the soundbar into an AC (mains) outlet, the soundbar automatically powers on.
• The first time the soundbar is powered on, the soundbar defaults to TV source.
• You can still access your voice assistant when the soundbar is powered off as long as it has been set up using the Bose Music app and the microphone is on (see page 28).

TIP: You can also use Voice4Video™ to power the soundbar on/off (see page 31).
Sources
The remote has four programmable source buttons (\(\text{\textregistered}\), \(\text{\textregistered}\), \(\text{\textregistered}\), and \(\text{\textregistered}\)). You can program these buttons to control your TV, cable/satellite box, game system, DVD or Blu-ray Disc™ player or other source. You can switch between sources by selecting different inputs on your TV using the remote.

1. On the remote, press the appropriate source button (\(\text{\textregistered}\), \(\text{\textregistered}\), \(\text{\textregistered}\), or \(\text{\textregistered}\)).
   The remote buttons glow according to the selected source.
2. Press \(\text{\textregistered}\).
   The source powers on.
3. Press \(\text{\textregistered}\).
4. Select the correct input on your TV.

NOTES:
• If CEC is enabled on your TV, the TV may automatically switch the source when the source is powered on.
• Pressing source buttons on the remote doesn’t change the TV input. It powers on the soundbar and changes the mode of the remote so that the remote can control the source functions.
• The remote is programmed to your TV during setup using the Bose Music app. If you replace your TV, use the Bose Music app to program the remote to your new TV.

TIP: You can also use Voice4Video™ to select your source (see page 31).
Presets
The soundbar includes six presets that you can set to play audio from your favorite music services. Once set, you can access your music, at any time, with a simple touch of a button on the remote or using the Bose Music app.

For more information about presets, see “Preset Personalization” on page 36.
## Media playback, channels, and volume

<table>

</tr>
<tr>
<td>Channel down</td>
<td>Press ◀.</td>
</tr>
</tbody>
</table>

**TIP:** You can also use Voice4Video™ to control media playback and volume for certain sources (see page 31).

### Cable/satellite functions

The red, green, yellow and blue buttons on the remote correspond with the color-coded function buttons on your cable/satellite box. Refer to your cable/satellite box owner’s guide.

### ADJUST THE BASS

To adjust the bass, use the Bose Music app. You can access this option from the Settings menu.

### PROGRAM A THIRD-PARTY REMOTE

You can program a third-party remote, such as your cable/satellite box remote, to control the soundbar. Refer to your third-party remote owner’s guide or website for instructions.

Once programmed, the third-party remote controls basic soundbar functions such as power on/off and volume.

**NOTE:** Not all third-party remotes are compatible with the soundbar. The remote must support IR (infrared) signals in order to control the soundbar.
VOICE ASSISTANT OPTIONS
You can program your soundbar to quickly and easily access Amazon Alexa or your-Google Assistant.

NOTE: Amazon Alexa and the Google Assistant aren’t available in certain languages and countries.

<table>
<thead>
<tr>
<th>OPTIONS</th>
<th>HOW TO USE</th>

<tr>
<td>Your Google Assistant</td>
<td>Use voice and/or the Action button ○ (see page 34).</td>
</tr>
</tbody>
</table>

NOTE: You can’t set the soundbar to access Amazon Alexa and the Google Assistant at the same time.

SET UP YOUR VOICE ASSISTANT
Before you begin, make sure your mobile device and the soundbar are connected to the same Wi-Fi network.

To set up your voice assistant, use the Bose Music app. You can access this option from the Settings menu.

NOTE: When setting up your voice assistant, make sure you use the same audio service account that you used in the Bose Music app.
## ACCESS AMAZON ALEXA

Alexa is the intelligent cloud-based voice service that you can talk to on your soundbar. All you have to do is ask Alexa to play music, hear the news, set a timer, control your smart home, and more. Alexa is also designed to protect your privacy – you can view and delete your voice requests at any time in the Alexa app.

For more information about what Alexa can do, visit: https://www.amazon.com/usealexa

**NOTE:** Alexa isn’t available in certain languages and countries.

## Use your voice

Start with “Alexa,” then say:

CONTROL AUDIO WITH VOICE4VIDEO™

Bose Voice4Video™ technology expands your Amazon Alexa voice capabilities like no other soundbar can. In addition to controlling your smart soundbar, you can control your TV and cable or satellite box with just your voice. With one simple ask of Alexa, you can turn on your TV and smart soundbar, tune to a station by network name or channel number, and start watching your favorite shows instantly. Say goodbye to missing remotes and remote tutorials, because Bose Voice4Video™ will make everyone feel like experts — even the babysitter or your tech-troubled in-laws.

Set up Voice4Video™

To set up Voice4Video™, use the Bose Music app.

NOTE: Before setting up Voice4Video™, you must set up Alexa in the Bose Music app (see page 28).
Use your voice
Start with “Alexa,” then say:

<table>
<thead>
<tr>
<th>THINGS TO TRY</th>
<th>EXAMPLES OF WHAT TO SAY</th>
</tr>
</thead>
<tbody>
<tr>
<td>Power on TV</td>
<td>Turn on TV.</td>
</tr>
<tr>
<td>Power off TV</td>

<tr>
<td>Switch input to <em>Bluetooth</em> audio</td>
<td>Switch to <em>Bluetooth</em>.</td>
</tr>
<tr>
<td>Watch a specific network*</td>
<td>Watch NFL Network.</td>
</tr>
<tr>
<td>Watch a specific channel number*</td>
<td>Watch channel 802.</td>
</tr>
<tr>
<td>Skip to the next channel*</td>
<td>Next channel.</td>
</tr>
<tr>
<td>Skip backward to the previous channel*</td>
<td>Previous channel.</td>
</tr>
</tbody>
</table>

*Only available for cable or satellite boxes.
ACCESS YOUR GOOGLE ASSISTANT

Get hands-free help from your Bose Smart Soundbar 700, which now works with your Google Assistant so you can pause and play your favorite media using just your voice.

For more information on what your Google Assistant can do, visit: https://support.google.com/assistant

NOTES:
• The Google Assistant isn’t available in certain languages and countries.
• For more information about playing audio with your Google Assistant, “Play music with your Google Assistant” on page 35.

Use your voice

Start with “Hey Google,” then say:

<table>
<thead>
<tr>
<th>THINGS TO TRY</th>
<th>EXAMPLES OF WHAT TO SAY</th>
</tr>
</thead>
<tbody>
<tr>
<td>Access Google’s smarts</td>
<td>How do you say friend in Spanish?</td>
</tr>
<tr>
<td>Have family fun</td>
<td>What noise does an elephant make?</td>
</tr>
<tr>
<td>Set a reminder</td>
<td>Remind me to call mom on Thursday.</td>
</tr>
<tr>
<td>Check your calendar</td>
<td>How does my day look?</td>
</tr>
<tr>
<td>Control your smart home</td>
<td>Turn off the lights.</td>
</tr>
</tbody>
</table>
Use the soundbar controls

You can use the Action button \( \bigcirc \) and Microphone off button \( \mathcal{X} \) to control your Google Assistant. They are located on the top of the soundbar.

**THINGS TO TRY**

<table>
<thead>
<tr>
<th>WHAT TO DO</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Talk to your Google Assistant</strong> Tapping ( \bigcirc ) then say your request. For a list of things to try, visit: <a href="https://support.google.com/assistant">https://support.google.com/assistant</a></td>
<td></td>
</tr>
<tr>
<td><strong>Stop alarms and timers</strong> Tapping ( \bigcirc ).</td>
<td></td>
</tr>
<tr>
<td><strong>Stop your Google Assistant</strong> Tapping ( \bigcirc ).</td>
<td></td>
</tr>
<tr>
<td><strong>Turn the microphone on/off</strong> Tapping ( \mathcal{X} ).</td>
<td></td>
</tr>
</tbody>
</table>

**NOTE:** When the microphone is off, the Microphone off indicator glows solid red, and you can’t access your Google Assistant.
PLAY MUSIC WITH YOUR GOOGLE ASSISTANT

You can ask your Google Assistant to play music from your default audio service or from a specific audio service.

Start with “Hey Google,” then say:

<table>
<thead>
<tr>
<th>THINGS TO TRY</th>
<th>EXAMPLES OF WHAT TO SAY</th>
</tr>
</thead>
<tbody>
<tr>
<td>Play music</td>
<td>Play jazz.</td>
</tr>
<tr>
<td></td>
<td><strong>NOTE:</strong> The Google Assistant uses your default audio service. To change the default audio service, use the Google Assistant app.</td>
</tr>
<tr>
<td>Control your speaker</td>
<td>Turn it up.</td>
</tr>
<tr>
<td>Play from a specific audio service</td>
<td>Play NPR on TuneIn.</td>
</tr>
<tr>
<td></td>
<td><strong>NOTE:</strong> The Google Assistant doesn’t support all audio services.</td>
</tr>
<tr>
<td>Play on a specific speaker</td>
<td>Play hip-hop in the kitchen.</td>
</tr>
<tr>
<td></td>
<td><strong>NOTE:</strong> Make sure you say the speaker name you assigned in the Bose Music app. If multiple speakers have the same name, use the name assigned in the Google Assistant app or change the name in the Bose Music app.</td>
</tr>
</tbody>
</table>

Choose a default audio service

During initial setup for your Google Assistant, the Google Assistant app prompts you to select a default audio service. When using your Google Assistant with Bose products, only Pandora and Spotify are supported default services. Although other audio services are listed as available during setup, they are not supported.

For the best experience, choose Pandora or Spotify as your default audio service. If you choose an unsupported audio service, you hear an error message when requesting to play music.
You can control presets using the Bose Music app or the remote.

**NOTE:** You can’t set presets in *Bluetooth* mode.

**SET A PRESET**

1. Stream music using the Bose Music app.
2. On the remote, press the Bose Music button 🎵.
3. Press and hold a preset button until you hear a tone.
PLAY A PRESET

1. On the remote, press the Bose Music button \( \text{\textbullet} \).
2. Press a preset button to play music.
Bluetooth wireless technology lets you stream music from mobile devices such as smartphones, tablets, and laptop computers. Before you can stream music from a device, you must connect your device to the soundbar.

**CONNECT A MOBILE DEVICE**

1. On the remote, press the *Bluetooth* button.

   ![Bluetooth button]

   The light bar pulses blue.

2. On your mobile device, turn on the *Bluetooth* feature.

   **TIP:** The *Bluetooth* menu is usually found in the Settings menu.
3. Select your soundbar from the device list.

**TIP:** Look for the name you entered for your soundbar in the Bose Music app.
If you didn’t name your soundbar, the default name appears.

Once connected, you hear a tone. The light bar glows solid white then fades to black. The soundbar’s name appears in the mobile device list.

**DISCONNECT A MOBILE DEVICE**

Use the Bose Music app to disconnect your mobile device.

**TIP:** You can also use Bluetooth settings on your mobile device. Disabling the Bluetooth feature disconnects all other devices.

**RECONNECT A MOBILE DEVICE**

On the remote, press the Bluetooth button ยะ.

The soundbar tries to connect with the most recently connected device.

**NOTES:**
- Make sure the Bluetooth feature is enabled on your mobile device.
- The device must be within 30 ft. (9 m) and powered on.
CONNECT AN ADDITIONAL MOBILE DEVICE

You can store up to eight devices in the soundbar device list, and the soundbar can be actively connected to two devices at a time.

**NOTE:** You can play audio from only one device at a time.

1. On the remote, press and hold the *Bluetooth* button ‡.

   ![Remote Control](image)

   The light bar pulses blue.

2. On your mobile device, select your soundbar from the device list.

   **NOTE:** Make sure the *Bluetooth* feature is enabled on your mobile device.

CLEAR THE SOUNDBAR DEVICE LIST

1. Tap and hold ‡ for 10 seconds until the light bar pulses white twice then fades to black.

   The light bar pulses blue.

2. Delete the speaker from the *Bluetooth* list on your device.

   All devices are cleared, and the speaker is ready to connect (see page 39).
The soundbar is capable of playing AirPlay 2 audio, which allows you to quickly stream audio from your Apple device to the soundbar or multiple speakers.

**NOTES:**
- To use AirPlay 2, you need an Apple device running iOS 11.4 or later.
- Your Apple device and soundbar must be connected to the same Wi-Fi network.
- For more information about AirPlay, visit: [https://www.apple.com/airplay](https://www.apple.com/airplay)

**STREAM AUDIO FROM THE CONTROL CENTER**

1. On your Apple device, open the Control Center.
2. Tap and hold the audio card in the top-right corner of the screen, then tap the AirPlay icon 🎧.
3. Select your soundbar or speakers.

**STREAM AUDIO FROM AN APP**

1. Open a music app (like Apple Music), and select a track to play.
2. Tap 🎧.
3. Select your soundbar or speakers.
The LED light bar located on the front of the soundbar shows the soundbar status.

NOTE: The light bar displays one status at a time of the selected source.

**WI-FI STATUS**
Shows the Wi-Fi connection status of the soundbar.

UPDATE THE SOUNDBAR

The soundbar updates automatically when connected to the Bose Music app and to your Wi-Fi network.

DISABLE/ENABLE WI-FI CAPABILITY

On the remote, press and hold the Bose Music button ♫ and Skip forward button ⟩ until the light bar pulses white twice then fades to black.
CONNECT ACCESSORIES

You can connect any of these accessories to your soundbar. For more information, refer to your accessory owner’s guide.

• Bose Bass Module 500: worldwide.Bose.com/Support/BASS500
• Bose Bass Module 700: worldwide.Bose.com/Support/BASS700
• Acoustimass 300 bass module: global.Bose.com/Support/AM300
• Bose Surround Speakers: worldwide.Bose.com/Support/WSS
• Bose Surround Speakers 700: worldwide.Bose.com/Support/WSS700
• Virtually Invisible 300 wireless surround speakers: global.Bose.com/Support/VI300

CONNECT A BOSE SOUNDLINK BLUE TOOTH SPEAKER OR BOSE HEADPHONES

With Bose SimpleSync™ technology, you can connect certain Bose SoundLink Bluetooth speakers or Bose headphones to the soundbar for a new way to hear your music and movies.

Benefits

• A personal TV listening experience: Listen to TV without disturbing others by connecting your Bose headphones to the soundbar. Use independent volume controls on each product to lower or mute the soundbar while keeping your headphones as loud as you like.

• Another room of audio: Listen to the same song in two different rooms at the same time by connecting your Bose SoundLink Bluetooth speaker to the soundbar.

NOTE: SimpleSync™ technology has a Bluetooth range of 30 ft (9 m). Walls and construction materials can affect reception.

Compatible products

You can connect most Bose SoundLink Bluetooth speakers and select Bose headphones to the soundbar.

Popular compatible products include:

• Bose SoundLink Revolve+ Bluetooth speaker
• Bose SoundLink Mini Bluetooth speaker
• Bose SoundLink Color Bluetooth speaker
• Bose Noise Cancelling Headphones 700
• Bose QuietComfort 35 wireless headphones

New products are added periodically. For a complete list and more information, visit: worldwide.Bose.com/Support/Groups
Connect using the Bose Music app

To connect your Bose SoundLink Bluetooth speaker or Bose headphones to the soundbar, use the Bose Music app. For more information, visit: worldwide.Bose.com/Support/Groups

NOTES:

• Make sure that the product you’re connecting to is powered on, within 30 ft (9 m) of the soundbar, and ready to connect to another device. For more information, refer to your product owner’s guide.

• You can connect only one product at a time to the soundbar.

RECONNECT A BOSE SOUNDLINK BLUETOOTH SPEAKER OR BOSE HEADPHONES

Power on your Bose SoundLink Bluetooth speaker or Bose headphones.

Your speaker or headphones try to connect to the most recently-connected Bluetooth device, including the soundbar.

NOTES:

• The soundbar must be within range (30 ft or 9 m) and powered on.

• If your speaker doesn’t connect, see “Soundbar doesn’t reconnect to a previously-connected Bose SoundLink Bluetooth speaker” on page 57.

• If your headphones don’t connect, see “Soundbar doesn’t reconnect to previously-connected Bose headphones” on page 57.
INSTALL THE REMOTE BATTERIES

1. Slide open the battery compartment cover on the back of the remote.

2. Insert the four provided AA (IEC-LR3) 1.5V batteries. Match the + and − symbols on the batteries with the + and − markings inside the compartment.

3. Slide the battery compartment cover back into place.
CLEAN THE SOUNDBAR

Clean the exterior of the soundbar with the provided cleaning cloth or another soft dry cloth.

CAUTIONS:

- Do NOT allow liquids to spill onto the system or into any openings.
- Do NOT blow air into the system.
- Do NOT use a vacuum to clean the system.
- Do NOT use any sprays near the system.
- Do NOT use any solvents, chemicals or cleaning solutions containing alcohol, ammonia or abrasives.
- Do NOT allow objects to drop into any openings.

REPLACEMENT PARTS AND ACCESSORIES

Replacement parts and accessories can be ordered through Bose customer service. Visit: worldwide.Bose.com/Support/SB700

LIMITED WARRANTY

The soundbar is covered by a limited warranty. Visit our website at global.Bose.com/warranty for details of the limited warranty.

To register your product, visit global.Bose.com/register for instructions. Failure to register will not affect your limited warranty rights.
TRY THESE SOLUTIONS FIRST

If you experience problems with the soundbar:
• Make sure the soundbar is connected to a live AC (mains) outlet.
• Secure all cables.
• Verify the state of the light bar (see page 43).
• Move the soundbar away 1 – 3 ft. (0.3 – 0.9 m) from possible interference (wireless routers, cordless phones, televisions, microwaves, etc.).
• Move the soundbar within the recommended range of your wireless router or mobile device for proper operation.
• Place the soundbar according to the placement guidelines (see page 15).

OTHER SOLUTIONS

If you could not resolve your issue, see the table below to identify symptoms and solutions to common problems. If you are unable to resolve your issue, contact Bose customer service.

Visit: worldwide.Bose.com/contact

<td>------------------------------</td>
<td>--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------</td>
</tr>
<tr>
<td><strong>Intermittent or no audio</strong></td>
<td>If the left side of the light bar is glowing solid white, the soundbar is muted. Press the Mute/Unmute button 🎤 to unmute the soundbar. Make sure your mobile device is not muted. Increase the volume on the soundbar (see page 26) or your mobile device. Switch to a different source (see page 24). Play audio from a different application or music service. If the audio is from a Wi-Fi source, reset the router. Restart your mobile device. Make sure you’re using a compatible Bluetooth mobile device. <strong>NOTE:</strong> You can’t connect Bluetooth headphones to the soundbar. Make sure that the soundbar’s HDMI cable is inserted into a connector on your TV labeled eARC or ARC (Audio Return Channel), not a standard HDMI connector. If your TV does not have an HDMI eARC or ARC connector, connect the soundbar using the optical cable (see page 62). If the soundbar is connected to your TV’s HDMI eARC or ARC connector, make sure that Consumer Electronics Control (CEC) is enabled in your TV system menu. Your TV may refer to CEC by a different name. Refer to your TV owner’s guide. Disconnect the soundbar’s HDMI cable from your TV’s HDMI eARC or ARC connector and reconnect it. Insert the optical cable into a connector on your TV labeled Output or OUT, not Input or IN. Unplug the power cords for the soundbar and optional bass module or surround speakers, wait 30 seconds and firmly plug them into the AC (mains) outlet.</td>
</tr>
<tr>
<td><strong>Soundbar doesn’t connect to bass module or surround speakers</strong></td>
<td>Refer to your bass module or surround speakers owner’s guide for troubleshooting (see page 47). Make sure our bass module or surround speakers are compatible with the soundbar (see page 47). Unplug the power cords for the soundbar and optional bass module or surround speakers, wait 30 seconds and firmly plug them into the AC (mains) outlet.</td>
</tr>
<tr>
<td><strong>No audio from bass module or surround speakers</strong></td>
<td>Make sure your bass module or surround speakers are compatible with the soundbar (see page 47). Make sure the software is current in the Bose Music app. Adjust the bass level using the Bose Music app (see page 27). Switch to a different source (see page 24).</td>

</tbody>
</table>
| Soundbar doesn't connect to Wi-Fi network   | In the Bose Music app, select correct network name, and enter the network password (case-sensitive). Make sure the soundbar and your mobile device are connected to the same Wi-Fi network. If your network information has changed, see page 19. Enable Wi-Fi on the mobile device you are using for setup. Close other open applications on your mobile device.  
**NOTE:** If your router supports both 2.4GHz and 5GHz bands, make sure both your mobile device and the soundbar are connecting to the same band.  
**NOTE:** Give each band a unique name to make sure you’re connecting to the correct band. Reset the router. Unplug the power cords for the soundbar and optional bass module or surround speakers, wait 30 seconds and firmly plug them into the AC (mains) outlet. Uninstall the Bose Music app on your mobile device, reinstall the app and restart setup. Connect to the network using an Ethernet cable. |
| Soundbar doesn’t connect to Bluetooth device | On your mobile device, turn the Bluetooth feature off and then on. Delete the soundbar from the Bluetooth list. Connect again (see page 39). Connect a different mobile device (see page 39). Make sure you’re using a compatible Bluetooth mobile device.  
**NOTE:** You can’t connect Bluetooth headphones to the soundbar. Remove the soundbar from your mobile device Bluetooth pairing list and connect again (see page 39). Clear the soundbar device list (see “Clear the soundbar device list” on page 41) and connect again (see page 41).                                                                 |
<p>| Soundbar doesn’t stream audio using AirPlay  | Make sure your soundbar is powered on and in range (see page 15). Make sure your Apple device and your soundbar are connected to the same Wi-Fi network. Update your Apple device. Make sure the soundbar is up-to-date (see page 46). If you can’t find the AirPlay icon 🎧 in the music app you are streaming from, stream audio from the Control Center. For additional support, visit: <a href="https://www.apple.com/airplay">https://www.apple.com/airplay</a> |</p>

| Bose Music app doesn’t work on mobile device    | Make sure your mobile device is compatible with the Bose Music app and meets minimum system requirements. For more information, refer to the app store on your mobile device.  
Uninstall the Bose Music app on your mobile device then reinstall the app (see page 18).                                                                                                                                  |
| Soundbar isn’t visible to add to another Bose account | Make sure sharing is enabled on your soundbar using the Bose Music app.  
Make sure the soundbar and your mobile device are connected to the same Wi-Fi network.                                                                                                                                                                                    |
| Alexa doesn’t respond                            | Make sure Alexa has been set up using the Bose Music app (see page 28).  
**NOTE:** The soundbar must be set up and connected to your Wi-Fi network using the Bose Music app.  
Make sure you’re in a country where Amazon Alexa is available.  
Make sure the Microphone off indicator is not glowing red. To turn on the microphone, see page 30.  
Connect your mobile device to Wi-Fi.  
Make sure you are using the most up-to-date version of the Amazon Alexa app.  
Make sure your mobile device is compatible.  
Make sure the wake word is enabled (see page 29).  
Remove Alexa from the soundbar using the Bose Music app. Add Alexa again.  
Make sure you say the name you assigned in the Bose Music app. If multiple speakers have the same name, use the name assigned in the Alexa app or change the name in the Bose Music app.  
If using Voice4Video™:  
• Make sure there are no obstructions between the soundbar, your TV, and/or cable or satellite box.  
• Make sure the soundbar is connected using the HDMI cable (see page 61).  
• Make sure you have set up this feature using the Bose Music app and connected your TV and/or cable or satellite box.  
• Make sure you have entered your postal code and service provider for your cable/satellite box.  
For additional support, visit: [https://www.amazon.com/usealexa](https://www.amazon.com/usealexa) |

Connect your mobile device to Wi-Fi.  
Make sure you’re in a country where the Google Assistant is available.  
Make sure you are using the most up-to-date version of the Google Assistant app.  
Make sure your mobile device is compatible.  
Remove your Google Assistant from the soundbar using the Bose Music app. Then, add your Google Assistant again.  
Choose Pandora or Spotify as your default audio service (see page 35).  
Make sure you use the same audio service account on the Bose Music app and Google Assistant app.  
Your Google Assistant may not support your request. New features are added periodically.  
For additional support, visit: [https://support.google.com/assistant](https://support.google.com/assistant) |
| **Change your Google Assistant personal result settings** | To turn off personal results or change the account for personal results, use the Settings menu in the Google Assistant app. |
| **Preset doesn’t respond** | Make sure the preset has been set (see page 36). |
| **Soundbar doesn’t connect to a Bose SoundLink Bluetooth speaker or Bose headphones** | Make sure that your speaker or headphones are powered on, within 30 ft (9 m) of the soundbar, and ready to connect to another device. For more information, refer to your product owner’s guide. |
| **Soundbar doesn’t reconnect to a previously-connected Bose SoundLink Bluetooth speaker** | On your speaker, use the product controls to cycle through the product device list until you hear the name for your soundbar. For product-specific instructions, refer to your speaker owner’s guide. |
| **Soundbar doesn’t reconnect to previously-connected Bose headphones** | Connect using the Bose Music app. You can access this option from the Settings menu. |
### TROUBLESHOOTING

<table>
<thead>
<tr>
<th>SYMPTOM</th>
<th>SOLUTION</th>
</tr>
</thead>
</table>
| Delayed audio from a connected Bose SoundLink Bluetooth speaker or Bose headphones | Not all speakers or headphones can play audio in perfect sync when connected to the soundbar. To check if your product is compatible, visit: worldwide.Bose.com/Support/Groups  

Install any available software updates for your speaker or headphones. To check for updates, open the appropriate Bose app for your product on your mobile device or visit btu.Bose.com on your computer. |
RESET THE SOUNDBAR

Factory reset clears all source, volume, network and ADAPTiQ audio calibration settings from the soundbar and returns it to original factory settings.

1. On the remote, press and hold the Power button \( \bigcirc \) and Skip forward button \( \gg \) for 5 seconds until light bar pulses white twice then fades to black.

   ![Remote control diagram]

   The soundbar reboots. When the reset is complete, the light bar glows solid amber.

2. To restore the soundbar’s network and audio settings:
   a. Launch the Bose Music app on your mobile device and add the soundbar to your network (see page 19).
   b. Run ADAPTiQ audio calibration using the Bose Music app.
CONNECTION OPTIONS

Connect the soundbar to your TV using one of the following connection options:

**Option 1 (preferred):** HDMI eARC or ARC (Audio Return Channel)

**Option 2:** Optical

**NOTE:** The preferred option is to connect the soundbar to your TV’s HDMI eARC or ARC connector using the HDMI cable.

1. On the back of your TV, locate the **HDMI IN** and **Audio OUT** (optical) connector panels.

   **NOTE:** Your TV’s connector panel may not appear as shown. Look for the shape of the connector.

   ![Connector Diagram]

   **Option 1 (Preferred) HDMI eARC or ARC:** Use the HDMI cable for this connection.

   **Option 2 Optical:** If your TV doesn’t have an HDMI eARC or ARC connector, use an optical cable for this connection.

2. Choose an audio cable.
CONNECT THE SOUNDBAR TO YOUR TV

After choosing an audio cable, connect the soundbar to your TV.

Option 1 (preferred): HDMI eARC or ARC

1. Insert one end of the HDMI cable into your TV’s HDMI eARC or ARC connector.

   **NOTE:** Make sure you insert the HDMI cable into an HDMI eARC or ARC connector on your TV, not a standard HDMI connector. If your TV does not have an HDMI eARC or ARC connector, see page 62.

2. Insert the other end of the cable into the HDMI (ARC) connector on the soundbar.
Option 2: Optical
If your TV doesn’t have an HDMI eARC or ARC connector, use the optical cable to connect the soundbar to your TV.

1. Remove the protective cap from both ends of the optical cable.

   CAUTION: Inserting the plug in the wrong orientation can damage the plug and/or the connector.

2. Insert one end of the optical cable into your TV’s Optical OUT connector.

3. Hold the plug at the other end of the optical cable.

4. Align the plug with the soundbar’s OPTICAL IN connector, and insert the plug carefully.

   NOTE: The connector has a hinged door that swings inward when inserting the plug.

5. Firmly push the plug into the connector until you hear or feel a click.
CHECK FOR SOUND

NOTE: To avoid hearing distorted audio, turn off your TV speakers. Refer to your TV owner’s guide for more information.

1. Power on your TV.

2. If you are using a cable/satellite box or other secondary source:
   a. Power on this source.
   b. Select the appropriate TV input.

3. If the soundbar is not powered on, press the Power button \( \bigcirc \) on the remote.
   You hear sound coming from the soundbar.

4. Press the Mute/Unmute button \( \slant \).
   You don’t hear sound coming from the TV speakers or soundbar.

NOTE: If you don’t hear sound coming from the soundbar or hear sound coming from your TV speakers, see page 54.
