

BOSE

LIFESTYLE® 650
HOME ENTERTAINMENT SYSTEM

At Bose, we're compelled
to push things forward

30年的不懈努力，BOSE重新定义家庭影院系统，带来全新视听震撼体验，前所未有的小巧体积搭载无与伦比的出色音质，不妥协的追求只为成就不同凡响的表现。

Our mission since day one: Think of better solutions, create better products and help you enjoy the things you love. To do this, we push our research, design and engineering beyond what's thought possible. And that's reflected in our latest 5.1 system.

**Details mean everything.
So we compromised on nothing.**

Beauty's in the eye—and ear—of the beholder. So we designed the Lifestyle® 650 home entertainment system to be beautiful in every way. Acoustics. Aesthetics. Craftsmanship. Simplicity. Built for your music, movies and TV, this system is designed to sound as stunning as it looks.

**Size that surprises.
Sound that astonishes.**

OMNIJEWEL™ SATELLITE SPEAKERS

A new chapter in our history of getting big sound from small speakers. Powerful dual-opposing drivers face each other inside to deliver omnidirectional sound. One thousand precisely perforated grille holes and a seamless aluminum-extruded exterior further enhance the acoustics. The result is true 360° coverage from each speaker, giving you a more spacious home theater experience from our smallest satellite speakers ever. And the rear speakers? Wireless.

OMNIJEWEL™ CENTER SPEAKER

A slimmed down speaker that does more. Much more. Its profile and anodized aluminum finish match the sleekness of your TV. But on the inside, it's packed with five precisely placed speakers—providing you with crystal clear dialogue, lower frequencies and a seamless audio experience between the front satellites. So you hear sound all around rather than from a single point.

WIRELESS BASS MODULE

A wireless bass module this small shouldn't sound this big. Not everyone knows how to reduce low-note distortion on smaller modules—but we do. The result? Deep, thunderous bass you'll feel from a speaker you'll hardly notice. And that's not all that went into it.

QuietPort™ technology

This proprietary technology—along with newly advanced digital signal processing—virtually eliminates distortion. So low notes stay clean and nuanced even as they reach new depths.

Powerful driver

Also newly designed, it's key to the tremendous level of sound you get for those crucial low notes that add so much to movies and music.

Premium materials

The tempered glass and aesthetic add a look of refinement uncommon for a bass module. It's durable and elegant, a premium look that matches the premium performance.

LIFESTYLE® CONTROL CONSOLE

So much technology, wrapped in a sleek design. Your first clue it's different is the stunning curved polished-glass exterior. The interior tells the rest of the story: it houses everything you need for the ideal listening experience, including wireless connectivity for the speakers and bass module, 4K pass-through, 6 HDMI™ inputs, one-touch Wi-Fi® music and *Bluetooth*® with NFC pairing. And it supports Dolby® Digital, Dolby Digital Plus™, Dolby® TrueHD, DTS Digital Surround™ and Multichannel PCM.

Exclusive technologies

The difference doesn't just come through in the sound and design. You'll find Bose innovation in other ways, too.

Stream just about any music you want. Instantly.

SoundTouch® lets you stream music through Spotify® or other music services directly through your Lifestyle® system.

Engineered so setup is always simple.

Unify® technology walks you through system setup with guided onscreen messages, whether it's plugging in wires or programming your remote.

Performance that adapts to your layout.

ADAPTIQ® audio calibration fine-tunes the sound specifically to your room and the things in it. So when you hear it, you hear it at its absolute best.

Lifestyle® control console inputs

- 1 source button
- 1 system setup button

Also available

LIFESTYLE® 600 SYSTEM

The Lifestyle® 600 system has all the same components as the Lifestyle® 650 home entertainment system. However, instead of OmniJewel™ speakers, this version includes classic Bose® Jewel Cube® speakers that direct and reflect sound off the walls to immerse you in your movies and music. And if you're looking for an in-wall solution, those speaker options are available, too.

Stream music to more than one room.

Lifestyle® systems deliver stunning performance for one room, but your music doesn't have to stop there. With SoundTouch®, these systems are part of an entire family of wireless products that give you instant access to millions of songs.

Once you have one SoundTouch® system, it's easy to add more anytime. They all work together, so as you go from room to room, your music goes with you. And you can control it all with the SoundTouch® app.

Soundbar

SOUNDTOUCH® 300

It looks slim. But the sound? Anything but. That's because we packed every cubic inch of this soundbar with technologies that bring out the best in everything. Music. Movies. Everything.

SoundTouch® wireless speakers

SOUNDTOUCH® 10 WIRELESS SPEAKER

Small enough to fit just about anywhere, with full, rich sound that belies its size.

SOUNDTOUCH® 20 WIRELESS SPEAKER

Packs enough clear, robust sound for bedrooms, kitchens and most other rooms.

SOUNDTOUCH® 30 WIRELESS SPEAKER

For occasions big or small, this speaker delivers. Fill your largest room with deep, rich, true-to-life sound.

Wireless music. From any speakers.

SOUNDTOUCH® SA-5 AMPLIFIER

Power your existing speakers with this amp and access wireless music with it, too. Use a pair you own or choose from below.

SOUNDTOUCH® WIRELESS LINK ADAPTER*

Already have powered speakers? Connect this adapter to your existing stereo or home theater system to stream music in minutes.

*Unavailable in some locations.

Built-in speakers

VIRTUALLY INVISIBLE® 591 & 791 IN-CEILING SPEAKERS

Engineered for full, even sound coverage. Choose the smaller 591 for more placement options, or the 791 for wider areas. Easily paintable.

VIRTUALLY INVISIBLE® 691 & 891 IN-WALL SPEAKERS

Engineered for full, even sound coverage. Choose the smaller 691 for more placement options, or the 891 for wider areas. Easily paintable.

Outdoor speakers

151™ SE ENVIRONMENTAL SPEAKERS

Designed to deliver full stereo sound outdoors. And they stand up to harsh elements.

251® ENVIRONMENTAL SPEAKERS

Our best outdoor speakers, designed for wide coverage. And they stand up to harsh elements.

FREE SPACE® 51 ENVIRONMENTAL SPEAKERS

The 360° sound stands out. The speakers blend in. These stand up to harsh elements, so you can leave them in- or on-ground year round.

At Bose, we're compelled to push things forward.

Our goal is to help you enjoy what you love by finding better solutions. It's a philosophy that Bose Corporation has remained true to since being founded in 1964.

And it's centered around a strong commitment to research—the discipline that lets yesterday's impossible become tomorrow's reality.

But it's more than simply research: It's aiming for excellence in everything. From the way we run our business, to customer service, to the owner's manuals. No matter what we do, we believe that "good enough" is only the first step. We're constantly striving for better solutions and better products.

And we won't stop anytime soon, because we can't. It's in our blood.
