A New Standard of Value and Performance.

Instruction Sheet

Introduction.

Congratulations on your purchase of the Studiocraft[®] loudspeaker system. Their unique design, innovative engineering, and quality construction will provide many years of satisfaction and listening pleasure. Your loudspeaker system is the culmination of many years of Bose research and dedication to the art of bringing superb musical reproduction into the home.

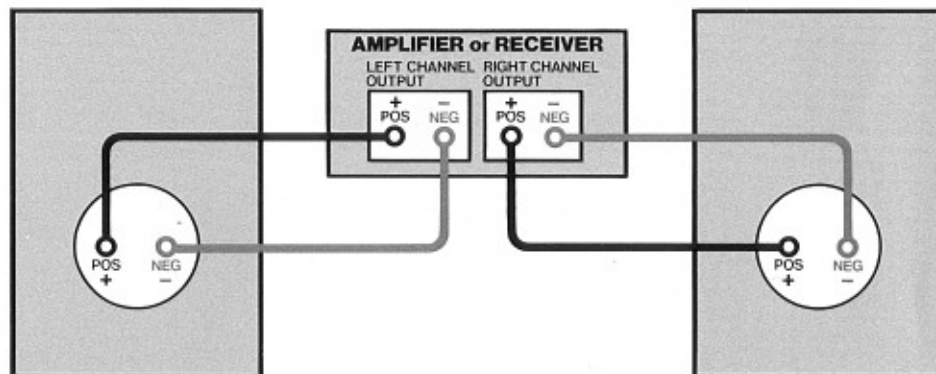

Unpacking Instructions.

Unpack carefully. If any components are found to be damaged or missing, contact your dealer immediately. When you have finished installing the loudspeakers, we recommend that you save the cartons and packing material for possible use later. When unpacking and positioning the loudspeakers, grasp only the wooden cabinet; do not grasp any portion of the speaker covered by the protective grille cloth.

Loudspeaker Installation.

The rear panels of the loudspeakers have two screw terminals marked "pos +" (positive) and "neg -" (negative). These terminals correspond to the positive and negative terminals on your amplifier/receiver. Run the wires from the speakers to the ampli-

fier/receiver, making sure you run from positive on the speakers to positive on the receiver and the same with negative.* Use 18 gauge wire for runs under 20 feet and 16 gauge for longer runs.

* To help with this, all wire is either color coded (use one color for positive and one for negative) or one side is ribbed for easy identification.

Care and Maintenance.

The enclosure of the Studiocraft loudspeaker system is covered with a durable walnut-grained vinyl finish and may be cleaned by using a soft damp cloth. The grille cloth requires no maintenance but may be carefully vacuumed, if necessary.

Warranty.

Full 5-year warranty. Bose® warrants this unit to be free from defects in materials and workmanship for a period of five years from the original date of purchase. During that period, Bose will remedy all such defects without charge for parts or labor upon return of the unit together with the original sales receipt or other proof of purchase to Bose or to an authorized Bose service agency. This warranty does not extend to damage resulting from improper installation, misuse, neglect or abuse, or to exterior appearance.

Should this unit fail within the warranty period, you should contact your nearest Studiocraft by Bose dealer for service instructions. The dealer may ask you to return the unit together with proof of purchase to him or direct you to return the unit together with proof of purchase to the nearest authorized Bose service agency. Alternatively, you may elect to send the unit directly to Bose by carefully following this procedure:

In no event shall Bose be liable for incidental or consequential damages.

- a. Obtain a Return Authorization number from the Bose Customer Service Department.
- b. Return the unit together with proof of purchase to Bose, freight prepaid, in its original shipping carton. Display the Return Authorization number prominently on the outside of the carton. If you need a new carton, your dealer or Bose will provide a free replacement carton. Any damage in transit due to improper packing is not covered by the warranty and will not be recognized as an insurance claim by the transportation companies.

Your unit will be repaired and returned to you at Bose's expense. If the defects cannot be repaired after a reasonable number of attempts by Bose to do so, you may elect to receive a refund or replacement, but only if the unit is returned to Bose free and clear of all liens and other encumbrances.

This warranty gives you specific legal rights, and you may also have other rights which vary from state to state. Some states do not allow the exclusion or limitation of incidental or consequential damages, so that the above limitation may not apply to you.

A registration card is provided requesting information about you and your high-fidelity system. The return of this card is encouraged, but is not a condition to coverage under this warranty.

Covered by patent rights issued and/or pending.
