

ShowMatch Array Frame Transport Case

Product Description

The Bose Professional ShowMatch Array Frame Transport Case carries either two ShowMatch Array Frames or two T-bar Array Frames, and two ShowMatch Array Pullback Brackets. The ATA-style transport case is constructed of 12 mm (1/2 in) Baltic Birch plywood with a protective PVC laminate, includes snap-back handles, to assist with cover removal and transportation, and four non-locking casters. The top cover features a recessed nameplate to accommodate a 17.78 x 12.7 cm (7 x 5 in) tour label.

Key Features

- Carries two ShowMatch SMAF Array Frames or two (2) ShowMatch SMAFT T-Bar Array Frames
- Additional storage space for rigging equipment such as anchor shackles, spansets, etc.
- High-density polyurethane skids allow case to be tipped in one direction; internal EVA foam protects array modules when case is tipped
- Sized for efficient truck pack and allows other gear to be placed on top for maximum storage utility
